PROFILE

Web and mobile application developer completing a B.S. in Information Networking and Telecommunications at Fort Hays State University. I build responsive websites, full-stack web apps, and cross-platform mobile apps with HTML/CSS/JavaScript, React, Flutter, and Firebase. A business administration degree and several years in fast-paced healthcare settings give me a strong foundation in client communication, data accuracy, and solving real workflow problems.

PROJECTS

Zephyr Acres Consulting Website · INF 490 Capstone — Fall 2026 · In progress
Client project for Zephyr Acres Consulting LLC, ethanol plant services & maintenance

- Partnering with the client's CEO as solo developer to replace a missing web presence with a modern, professional site.
- Planning site structure, branding, page design, mobile responsiveness, and contact features from client requirements.

HTML5 · CSS3 · JavaScript · Responsive Design · GitHub

SimpleNotes · React Web App — INF 655

- Built a note-taking app with user registration, login, protected routes, and per-user cloud storage.
- Implemented create, edit, delete, search, and category features; deployed live on Vercel.

React · JavaScript · Vite · Firebase Auth · Cloud Firestore · Vercel

Silent Signal · Progressive Web App — INF 654 · In progress

- Designing and building an anonymous, mobile-first community reporting app with feed, submit, post detail, and guidelines pages.

HTML5 · Materialize CSS · JavaScript · PWA

WORK EXPERIENCE
